<b>Frameworks or Libraries</b>	Bootstrap, Tailwind and React.JS (Basics)
<b>Databases</b>	MySQL, MongoDB(Basics), PostgreSQL(Basics)
<b>Additional Skills</b>	Video Editing & Photo Editing (Basics)

## PROJECTS

---

**Movie Watchlist.** Developed a command-line interface (CLI) application in Python designed to help users effectively manage and analyze their movie-watching experiences. The project uses Pandas and Matplotlib providing a seamless way to track movies, offering insights into viewing habits through data visualization. ([View it here](#))

**Bhagavad Gita — An E-Gita Website.** Developed and deployed a static website that offers users an easy-to-navigate digital version of the Bhagavad Gita. Integrated a third-party API to provide users with verse-by-verse translations and interpretations. ([View it here](#))

**Grammify - A Grammar Corrector.** Developed a web application using React.js and the Gemini API that provides real-time grammar correction for text inputs. The application offers users a sleek and intuitive interface where they can type or paste text, and receive instant feedback on grammar, punctuation, and style. ([View it here](#))

## CERTIFICATES

---

<b>Responsive Web Designing</b>	- <i>FreeCodeCamp</i>
<b>UI/UX Designing Fundamentals</b>	- <i>Udemy</i>
<b>Python Essentials</b>	- <i>Cisco Networking Academy</i>
<b>Python For Data Science</b>	- <i>Cognitive Classes</i>
